NET SALES

RESULT FOR THE PERIOD

For the quarter to achieve an operating result of SEK 46.0 million and a result for the period of SEK 26.0 million pleases me.

CEO COMMENTS

It is gratifying that 2019 started just as good as 2018 ended. Sales growth of 18 %, of which 11 % in local currencies, is strong! It was also the 19th consecutive quarter of sales growth showing that we are in a period of strong development! Operating result rose from SEK 18.6 million to SEK 46.0 million and result for the period increased from SEK 6.0 million to SEK 26.0 million. Both results are all-time high for a first quarter.

NET SALES

All our three segments had growth. Sports & Leisure continued to develop very strongly and showed 21 % growth. Corporate was not far behind with growth of 19 % and Gifts & Home Furnishings managed to cross the zero line, even if growth was a modest 2 %. The Group's net sales passed some milestones as it was the first time we crossed the SEK 1.5 billion for a first quarter – and the first time we crossed the SEK 6.5 billion on a rolling 12 months (SEK 6,523 million). We probably had a somewhat positive effect compared to the previous year as Easter this year is in the second quarter.

RESULT

The first quarter is always the weakest but it is still very nice to begin the year well. For the quarter to achieve an operating result of SEK 46.0 million and a result for the period of SEK 26.0 million pleases me. We also pass a milestone in terms of operating result and for the first time we passed SEK 500 million on a rolling 12-month period.

BALANCE SHEET

IFRS 16, which we report according to for the first time, affects the comparison between the years and the new standard has resulted in an increase in net debt by SEK 633.2 million. In addition, the quarter was affected significantly by changes in exchange rates which increased stock by SEK 103.8 million. But I am satisfied that we have a strong balance sheet with an equity ratio of almost 46 % despite IFRS 16.

THE FUTURE

I still feel that we stand very strong! Even in the future there can be quarters that are less favorable but I am confident that the investments we have already made will generate growth in both sales and result for many years to come! It is a tremendous benefit for me to lead such a strong and driven organisation which we currently have and skilled staff are essential for success. We also have a number of strong brands, good products, high level of service etc. which makes it even better!

Thank you all for the first quarter!

Torsten Jansson, CEO

COMMENTS

SUMMARY OF THE QUARTER JANUARY - MARCH

The Group had net sales growth of 18% (11% excluding currency changes). The improvement took place in all segments, but mainly within Sports & Leisure and Corporate, which increased by 21% and 19%, respectively. Sports & Leisure had growth in all regions but mainly in Sweden and the Nordic region. Corporate increased mainly in the United States and the Nordic countries excluding Sweden, but the other regions also had good growth. Gifts & Home Furnishings increased by 2% and sales increased primarily in the Nordic countries excluding Sweden.

The promo sales channel increased by 19% and the improvement is related to Corporate and Sports & Leisure. The retail sales channel increased by 17%, which is mainly attributable to Sports & Leisure.

The gross profit margin improved compared with last year and amounted to 47.1 (46.8) %.

The Group's costs increased compared with last year. External costs have increased mainly due to an increase in market activities and improvement measures in our distribution centers. Volume-related costs have also contributed to the increase. The increase in personnel costs is related to an increase in the number of employees within sales, warehousing and customer service.

Operating result increased by SEK 27.4 million compared with last year and amounted to SEK 46.0 million (18.6) and the result for the period amounted to SEK 26.0 million (6.0).

Cash flow from operating activities amounted to SEK -65.1 (6.6) million. The lower cash flow is primarily an effect of increased inventory purchases and the payment thereof. Inventories increased by SEK 535.0 million and amounted to SEK 3,345.3 (2,810.3) million, of which exchange rates have increased the value by SEK 103.8 million. The increase is mainly attributable to new product lines and inventory build-up in North America.

When visiting Kosta, you can stay at the Kosta Lodge, or enjoy a spa weekend at Kosta Boda Art Hotel.

JANUARY - MARCH

NET SALES

Net sales amounted to SEK 1,504.9 million, which was 18 % higher than last year (SEK 1,272.8 million). Exchange rates affected sales positively by SEK 85.9 million, which corresponds to 7 %.

Net sales in Sweden increased by 11 % and the improvement occurred in both sales channels. USA increased by 20 % and it was primarily the promo sales channels that had good growth. Exchange rate changes when converted into SEK, affected net sales positively and sales in local currencies increased by 7 %. Nordic countries excluding Sweden had growth of 19 % and both sales channels increased. Net sales in Central and Southern Europe increased by 16 % and 20 % respectively, which is related to both promo and retail. Here too, changes in exchange rates impacted positively and net sales in local currency increased by 12 % and 16 % respectively. Other countries increased by 32 %, which is related to the operations in Asia and Canada as well as the promo sales channel.

GROSS PROFIT

The gross profit margin improved and amounted to 47.1 (46.8) %. It is Sports & Leisure and Gifts & Home Furnishings that have an improved margin while Corporate had a slightly lower margin than last year.

OTHER OPERATING INCOME AND OTHER OPERATING EXPENSES

Other operating income increased by SEK 1.3 million to SEK 17.2 (15.9) million. Other operating income is mainly attributable to operating currency gains but also other remunerations and should be compared to the result row Other operating expenses where mainly currency losses are reported. Other operating expenses decreased by SEK 3.6 million and amounted to SEK -8.2 (-11.8) million. The net total of above items amounted to SEK 9.0 (4.1) million and the improvement is attributable to other remunerations.

COSTS AND DEPRECIATIONS

The Group has previously decided to increase the level of service and to continue with a high level of sales and marketing activities. These activities have resulted in higher costs and are expected to affect even the coming quarters.

External costs increased by SEK 21.2 million to SEK -338.4 (-317.2) million. The increase is mainly related to the above-mentioned activities but also volume related costs have contributed. Personnel costs increased by SEK 36.6 million and amounted to SEK -283.0 (-246.4) million, which is mainly due to an increase in the number of employees, mostly in sales, warehousing and customer service. Exchange rates have increased the above costs by SEK 37.2 million, while accounting according to IFRS 16 has reduced external costs by SEK 30.6 million.

Amortizations, depreciations and write-downs were higher than last year and amounted to SEK -51.0 (-17.6) million. The increase is primarily an effect of IFRS 16, which affected depreciation by SEK -28.1 million.

OPERATING MARGIN

The operating margin increased compared to last year and amounted to 3.1 (1.5) %. The increase is related to higher net sales growth.

NET FINANCIAL ITEMS AND TAXES

Net financial items amounted to SEK -14.0 (-10.2) million. Accounting according to IFRS 16 affected financial costs by SEK 4.5 million.

Tax expense for the period amounted to SEK -6.0 (-2.4) million and the change is attributable to the improved result.

RESULT FOR THE PERIOD

Result for the period amounted to SEK 26.0 (6.0) million and earnings per share amounted to SEK 0.41 (0.10).

REPORTING OF OPERATING SEGMENTS

New Wave Group divides its operations into segments Corporate, Sports & Leisure and Gifts & Home Furnishings. The Group monitors the segments' and brands' sales as well as EBITDA. The operating segments are based on the Group's operational management.

CORPORATE

Net sales for the first quarter increased by 19 % and amounted to SEK 737.6 (620.5) million. All regions had good growth, but the US and the Nordic region excluding Sweden had slightly higher growth than the segment as a whole. It was mainly the promo sales channel that increased their sales. EBITDA increased by SEK 34.6 million and amounted to SEK 77.4 (42.8) million. The improved result is related to the increased turnover but the segment also had higher costs. The higher overheads were in the form of increased sales and marketing activities and higher costs for distribution centers. The cost increase for the distribution centers was related to larger premises as well as other improvement measures to increase the service level. IFRS 16 had a positive impact of SEK 19.4 million on EBITDA.

SPORTS & LEISURE

Net sales for the period January - March increased by 21 % and amounted to SEK 642.8 (530.5) million. Sales increased in both sales channels whereby promo sales increased by 21 % and retail by 21 %. The segment had growth in all regions. EBITDA increased by SEK 23.8 million and amounted to SEK 37.1 (13.3) million. The improved result is related to the increased turnover and an improved gross profit margin, but the segment also has higher costs in the form of increased sales, marketing and distribution centers. IFRS 16 had a positive impact of SEK 9.2 million on EBITDA.

GIFTS & HOME FURNISHINGS

Net sales increased 2 % and amounted to SEK 124.5 (121.8) million. Sales increased somewhat in both sales channels. Growth is primarily occurring in the Nordic region excluding Sweden. EBITDA improved slightly compared with last year and amounted to SEK -17.6 (-19.9) million, which is attributable to improved gross profit margin and that IFRS 16 had a positive impact of SEK 2.0 million on EBITDA.

CAPITAL TIED UP

Capital tied up in stock amounted to SEK 3,345.3 million and increased by SEK 535.0 million, compared with last year (SEK 2,810.3 million). The increase is related to the new product lines as well as continued buildup of stock in North America. In addition, the currency exchange rates increased the value by SEK 103.8 million. The Group has a well-balanced stock and the level of service is good. The stock value is expected to be at a higher level even during the coming quarters due to our extended promo range. Stock turnover is on par with last year and amounted to 1.0 (1.0) times.

SEK million	2019-03	2018-03
Raw materials	48.5	34.5
Work in progress	14.9	10.3
Goods in transit	124.0	146.7
Merchandise on stock	3,157.9	2,618.8
Total	3,345.3	2,810.3

Accumulated write-down of inventories amounted to SEK 124.5 (106.0) million and write-down related to merchandise on stock amounted to 3.8 (3.9) %.

Accounts receivable amounted to SEK 991.7 (856.5) million where growth is mainly related to the higher turnover.

INVESTMENTS, FINANCING AND LIQUIDITY

This quarter's cash flow from operating activities amounted to SEK -65.1 (6.6) million. The Group's purchases of goods have been higher than last year and the lower cash flow is mainly attributable to the timing of payments of these. Cash flow from investing activities amounted to SEK -38.3 (-39.8) million.

Net debt increased by SEK 922.3 million, of which SEK 633.2 million is attributable to IFRS 16, and amounted to SEK 2,614.5 (1,692.2) million. Net debt to equity ratio and net debt in relation to working capital amounted to 73.7 (54.5) % and 76.5 (57.7) % respectively, see also the note related to IFRS 16 on page 26.

The equity ratio decreased by 5.4 percentage points compared to last year and amounted to 45.9 (51.3) %, where 4.1 percentage points of the decrease are attributable to IFRS 16.

The Group's total credit line as of 31 March amounted to SEK 2,761

million, of which SEK 2,000 million runs until and including March 2022 and USD 28 million has a maturity which runs until and including January 2024. The other SEK 500 million has a term of between three months and six years. The credit facility amount is limited to and dependent on the value of some underlying assets. The funding agreement means that financial ratios (covenants) must be fulfilled in order to maintain the credit facility.

Based on the present forecast, management estimates that the Group will be able to meet these ratios with a satisfactory margin.

PERSONNEL AND ORGANISATION

The number of employees as of 31 March amounted to 2,604 (2,527) of whom 52 % were women and 48 % were men. Of the total number of employees 605 (602) work in production.

The production contained within New Wave Group is attributable to AHEAD (embroidery), Cutter & Buck (embroidery), Dahetra, Kosta Boda, Orrefors, Paris Glove, Seger, Termo and Toppoint.

RELATED PARTY TRANSACTIONS

There are lease agreements with related companies. Related companies to the CEO have bought merchandise and received payments for consulting services performed. In addition, there are transactions with related parties to immaterial values. All transactions are on market terms.

THE PARENT COMPANY

NOTES

NOTE 1 - ACCOUNTING POLICIES

This report is prepared in accordance with IAS 34 Interim Financial Reporting and the Annual Accounts Act. The interim report for the Parent Company has been prepared according the Annual Accounts Act as well as RFR 2 - Reporting for Legal Entities.

New accounting policies for 2019 are described in the Annual Report for 2018, Note 1 Accounting Policies under the section New and amended accounting policies, p. 70-71. Applied accounting policies are otherwise consistent with the 2018 Annual Report.

NEW ACCOUNTING POLICIES FOR 2019

Starting from January 1, 2019, New Wave Group applies IFRS 16 Leases. The Group has applied the simplified transition method and has not recalculated the comparative figures. The simplification rule, that the right of use asset shall correspond to the lease liability, has been applied at the transition. Hence, no transition effect is recorded in the equity of the Group. Complete accounting policies for leasing are presented in the 2018 Annual Report.

The Parent company has chosen to apply the exemption rules in RFR 2, which imply that all lease agreements will continue to be recorded as operational leases.

NOTE 2 - RISKS AND RISK CONTROL

New Wave Group's international operations mean that it is continuously exposed to various financial risks. The financial risks are interest rate risks, currency risks and liquidity and credit risks. In order to minimize the effect these risks may have on earnings, the Group has a financial policy. For a more detailed description of the Group's risk management please refer to the Annual Report 2018, note 17, p. 92-98. The annual report is available at the Group's headquarters in Gothenburg, Sweden, as well as on www.nwg.se.

The Group's policy is to have short fixed-rate interest periods, which means that fluctuating short-term interest rates have a rapid impact on the Group's net interest income.

The Group's reported risks are deemed to be essentially unchanged.

DEFINITIONS OF ALTERNATIVE PERFORMANCE MEASURES

Guidelines concerning non-IFRS performance measures for companies with securities listed on a regulated market in the EU have been issued by ESMA (The European Securities and Markets Authority). These guidelines are to be applied to alternative performance measures (APM) applied as of July 3, 2016. The Interim Report refers to a number of non-IFRS performance measures used to assist investors and company management to analyze the company's

operations. Because not all companies calculate the financial measures in the same way, these are not always comparable to measures used by other companies. These financial measures should not be seen as a substitute for measures defined under IFRS. A description of the various non-IFRS performance measures used as a complement to the financial information reported according to IFRS and how they are used, is presented below.

PERFORMANCE MEASURES	DEFINITION/CALCULATION	PURPOSE
GROSS PROFIT MARGIN	Net sales less goods for resale in percent of net sales.	The measure is used for showing the Group's margins before the effect of costs such as selling and administrative costs.
OPERATING MARGIN	Operating result as a percentage of the period's net sales.	The measure is used to show operating profitability and how the Group meets its targets.
PROFIT MARGIN	Result before tax as a percentage of the period's net sales.	The measure enables the profitability to be compared across locations where corporate taxes differ.
NET MARGIN	Result after tax as a percentage of the period's net sales.	The measure is used to show net earnings in relation to income.
ORGANIC GROWTH	Organic growth refers to sales growth from existing operations cleared from currency effects. The currency effect is calculated by recalculating this year's sales in local currency to last year's rates and compared to previous year's sales.	The measure is used to show growth in existing business since currency effects are beyond the Group's control and to measure how the Group meets its targets.
EBITDA	Operating result before depreciation, amortization and write-downs of tangible and intangible fixed assets.	The measure is used to show result from operating activities, regardless of depreciation, amortization and write-downs.
NET FINANCIAL ITEMS	The total of interest income, interest expenses, currency differences on borrowings and cash equivalents in foreign currencies, other financial income and other financial expenses.	The measure reflects the Group's total costs of the external financing.

RETURN MEASURES	DEFINITION/CALCULATION	PURPOSE
RETURN ON CAPITAL EMPLOYED	Result before tax plus financial expenses as a percentage of average capital employed. The average capital employed is calculated by taking the capital employed per period end and the capital employed at year-end for the previous year divided by two.	The measure is used to analyze profitability by putting result in relation to the capital needed to operate the business.
RETURN ON EQUITY	Result for the period according to the income statement as a percentage of average equity. For the Parent company it is calculated as result after tax as a percentage of average adjusted equity. In adjusted equity, 78 % of untaxed reserves are included.	The measure is used to analyze profitability over time, given the resources available to the Parent company's owners.

DATA PER SHARE	DEFINITION/CALCULATION	PURPOSE
EQUITY PER SHARE	Equity at the end of the period divided by number of shares at the end of the period.	Equity per share measures the net asset value per share and determines if a company is increasing shareholder value over time.

CAPITAL MEASURES	DEFINITION/CALCULATION	PURPOSE
EQUITY	The equity reported in the consolidated balance sheet consists of taxed equity increased by the equity portion of the Group's untaxed reserves and non-controlling interests. Deferred tax liability in untaxed reserves has been calculated at the applicable tax rates for the companies in each country, as decided and communicated at the balance sheet date.	The measure is the difference between the Group's assets and liabilities, which corresponds to the Group's equity contributed by owners and the Group's accumulated profits.
CAPITAL EMPLOYED	Total assets less provisions and non-interest bearing liabilities, which consist of accounts payable, current tax liabilities, other liabilities and accrued expenses and prepaid income.	The measure indicates how much capital is needed to run the business, regardless of type of financing (borrowed or equity).
WORKING CAPITAL	Total current assets, excluding liquid assets, less short-term non-interest bearing liabilities.	The measure is used to show how much capital is needed to finance operating activities.
NET DEBT	Interest-bearing liabilities (current and non-current) less cash and cash equivalents.	The measure shows financing from borrowings.
STOCK TURNOVER	Goods for resale in the income statement divided by average stock.	The measure is used to show the stock's turnover per year, since the stock is central for the Group to keep a good service level, i.e. to be able to deliver goods fast.
NET DEBT TO EQUITY RATIO	Net debt as a percentage of equity.	The measure helps show financial risk and is useful for management to monitor the level of the indebtedness.
NET DEBT IN RELATION TO WORKING CAPITAL	Net debt divided by working capital.	The measure is used to show how much of the working capital is financed through net debt.
INTEREST COVERAGE RATIO	Result before tax plus financial costs divided by financial costs.	The measure is used to calculate the Group's ability to pay interest costs.
EQUITY RATIO	Equity as a percentage of total assets.	The measure shows how much of the Group's assets are financed by the shareholders through equity. An equity ratio is a measure of financial strength and how the Group meets its targets.

OTHER MEASURES	DEFINITION/CALCULATION	PURPOSE
EFFECTIVE TAX RATE	Tax on profit for the period as a percentage of result before tax.	This measure enables comparison of income tax across locations where corporate taxes differ.
EFFECTIVE INTEREST RATE	Net financial items in relation to average net debt.	The measure enables comparison of cost for the net debt.
CASH FLOW FROM OPERATIONS	Cash flow from operating activities including changes in working capital and before cash flows from investing and financing activities.	The measure is used to show the cash flow generated by the company's operations.
NET INVESTMENTS	Cash flow from investing activities according to the cash flow analysis which includes investments and divestments of buildings, acquisitions, investments in tangible and intangible assets and raised long-term debt.	The measure is used to regularly estimate how much cash is used for investments in operations and for expansion.
